HOSE AND CORD REELS

GROUNDING REELS

30°

HOSE REELS.

Our total, dedicated business.

We've been making hose reels for decades - over 38 years in fact - and this manufacturing wisdom, coupled with competitive pricing, knowledgeable staff, a wealth of technical information and solid after-sales service positions us firmly at the forefront of our industry.

Our head office and factory is based in Sydney Australia, with a well-stocked distribution centre in Auckland NZ, as well as reputable distribution partners across the globe.

ReCoila has a fully equipped production facility and a team of experts to ensure our reels are designed and manufactured to exacting standards.

With a comprehensive range of hose, cord and cable reels and a dedicated custom design and manufacturing team, ReCoila can supply the right reel for your individual application - with safety and productivity in mind.

AUSTRALIAN MANUFACTURING. INTERNATIONAL DISTRIBUTION.

ReCoila is a proudly Australian company based in Western Sydney, with distribution reach across Australia, New Zealand and internationally.

We have resellers strategically based in key metro and regional areas to ensure delivery to customers is as swift as possible, and long standing relationships with our freight carriers mean that logistics are coordinated efficiently.

AUSTRALIAN MADE + QUALITY IMPORTS = COMPREHENSIVE RANGE.

Our range constitutes a wealth of engineered polypropylene and heavy duty steel and stainless steel reels, supplemented with hand-picked reels from some of the world's best manufacturers, to present a truly comprehensive product portfolio. And, our ability to design and manufacture customised reels in-house means that we're sure to have a reel to suit your needs.

SPECIALISTS IN CUSTOM REELS

38+ years manufacturing wisdom

ReCoila is committed to continued quality and engineering excellence, coupled with real-world practicality and constant improvement based on feedback from customers.

Our goal has always been to design the best reels in the world - and we think we're pretty close to the mark.

With teams of specialists for both steel and polypropylene production, we continue to lead the way in design, innovation, functionality & reliability.

WE KNOW REELS – YOU KNOW YOUR BUSINESS.

Whilst we've been building reels for over thirty years, we continue to learn and adapt to individual industry challenges in consultation with our customers.

We have worked with Australian and New Zealand fire brigades, Australian Defence forces, major international mining and resources projects, salmon farms, airports, oil rigs, gas exploration companies, plumbers, truck builders, food manufacturers, wineries, auto workshops, universities and electricity providers, and have built reels to transfer everything from clean air to cow dung.

Our collaborative approach has always resulted in a hose reel that is of the highest quality, whilst being simple, practical and effective for the people in the field who are actually operating it.

THE MAKING OF A CUSTOM HOSE REEL

GROUNDING REELS

Manage static discharge safely

A red static discharge reel is shown in a workshop setting. The reel is circular with a black cable wound around it. Two orange clamps are attached to the end of the cable. The reel is mounted on a metal base. The background shows a concrete floor and some industrial equipment.

The G3000 Series static discharge reels are used to ground equipment operating in hazardous atmospheres such as fuel trucks.

When properly clamped to the ground, the static discharge reel dissipates static electricity, reducing the chance of sparking and the potential for explosion.

G3000 SERIES GROUNDING REELS

APPLICATION

The G3000 Series static discharge reels are used to ground equipment operating in hazardous atmospheres such as fuel trucks.

When properly clamped to the ground, the static discharge reel dissipates static electricity, reducing the chance of sparking and the potential for explosion.

CABLE TYPE	Steel
MEDIA	Static discharge
CONSTRUCTION MATERIAL	Steel
FINISH	Painted
FITTING TYPE	Spring loaded clamps

FEATURES

DIMENSIONS

	G3000	GA3100N
A	224	248
B	200	-
C	219	235
D	85	109

G3000 SERIES GROUNDING REELS

Model	Cable Description	Length (m)	Weight (kg)
G3050	Single 7 x 7 stranded steel cable	15	6
 G3050N	Single 7 x 7 stranded steel Nylon covered cable	15	6
G3050Y	10.5m cable and dual 4.5 for "Y"	15	6
 GA3100N	7 x 7 stranded steel Nylon covered cable	30	10

 = Quick Ship Item, see inside back cover for more information.
